PERSONAL PORTFOLIO WEBSITE

Project Documentation

1. Introduction

A personal portfolio website is a simple website that introduces a person and presents their education, skills, projects, hobbies, and contact information. This project is created for a first-year B.Tech student using basic web development technologies. It provides a neat and organized way to share personal and academic details online.

2. Features

• **Navigation menu:** Links to Home, About, Education, Skills, Projects, Hobbies, and Contact sections.
• **Home and About:** A short introduction and profile description.
• **Education:** Displays B.Tech, Intermediate, and SSC education details.
• **Technical skills:** Shows skills such as HTML, CSS, Python, and communication.
• **Projects:** Presents sample projects, including a personal website and a cafe website.
• **Hobbies:** Lists interests such as listening to music, reading, and exploring technology.
• **Contact section:** Displays contact details and location.
• **Simple visual design:** Uses a soft purple theme, clear headings, and card-style sections.

3. Applications

• Helps students introduce themselves to teachers, classmates, and recruiters.
• Can be used to present academic qualifications, skills, and projects in one place.
• Supports learning and practicing HTML and CSS.
• Can be shared as a link when applying for internships, workshops, or student activities.
• Provides a foundation for adding more projects and improving web development skills.

4. Conclusion

The personal portfolio website is a useful beginner-level web development project. It organizes personal and educational information in a clear and attractive format. By creating this website, students can practice HTML and CSS and build a foundation for developing more advanced websites in the future.

MY PORTFOLIO

Home About Education Skills Projects Hobbies Contact

HELLO,I'M MANOGNA

I am a first-year B.Tech student interested in programming and technology.

Welcome to my personal website!

ABOUT ME

I am a passionate engineering student. I enjoy learning new technologies, improving my skills, and creating simple projects.

MY EDUCATION

B.Tech

Computer Science Engineering

2026 - 2030

Intermediate

MPC

2024 - 2026

SSC

School Education

2024

TECHNICAL SKILLS

HTML CSS Python Communication

MY PROJECTS

Personal Website

A simple personal website created using HTML and CSS.

Cafe Website

A simple website displaying food items and menu details.

MY HOBBIES

Listening to Music

I enjoy listening to music.

Reading

I love reading and learning new things.

Exploring Technology

I enjoy learning about new technologies.
