COLLEGE FESTIVAL WEBSITE

Project Documentation

1. Introduction

The College Festival Website is a simple and attractive website designed to provide information about a college fest. It presents technical events, cultural competitions, workshops, event schedules, coordinators, rules, and registration details in one place. The website helps students understand the festival activities and participate easily.

2. Features

• Displays technical events and cultural competitions.
• Provides details about workshops and event schedules.
• Shows event coordinators and participation rules.
• Includes registration forms for students.
• Uses category-based cards to organize event information.
• Features responsive banners and a neat, user-friendly layout.

3. Applications

• Helps students explore festival events and activities.
• Makes schedules, rules, and coordinator details easy to access.
• Supports student registration for events and workshops.
• Helps organizers share festival information in one place.
• Can be used to promote college festivals and encourage participation.

4. Conclusion

The College Festival Website is a useful web development project for organizing and presenting college fest information. It makes event details easy to find and supports student participation through clear schedules and registration features. Creating this website also helps students practice HTML and CSS and develop basic website design skills.

5. Code

HTML and CSS source code for the Genious Minds 2026 College Fest website.

```
