# PERSONAL PORTFOLIO WEBSITE

Project Documentation

## 1. Introduction

A personal portfolio website is a simple website that introduces a person and presents their education, skills, projects, hobbies, and contact information. This project is created for a first-year B.Tech student using basic web development technologies. It provides a neat and organized way to share personal and academic details online.

## 2. Features

• Navigation menu: Links to Home, About, Education, Skills, Projects, Hobbies, and Contact sections.
• Home and About: A short introduction and profile description.
• Education: Displays B.Tech, Intermediate, and SSC education details.
• Technical skills: Shows skills such as HTML, CSS, Python, and communication.
• Projects: Presents sample projects, including a personal website and a cafe website.
• Hobbies: Lists interests such as listening to music, reading, and exploring technology.
• Contact section: Displays contact details and location.
• Simple visual design: Uses a soft purple theme, clear headings, and card-style sections.

## 3. Applications

• Helps students introduce themselves to teachers, classmates, and recruiters.
• Can be used to present academic qualifications, skills, and projects in one place.
• Supports learning and practicing HTML and CSS.
• Can be shared as a link when applying for internships, workshops, or student activities.
• Provides a foundation for adding more projects and improving web development skills.

## 4. Future Scope

In the future, the website can be enhanced with JavaScript to add more interactive features. A contact form can be connected to a backend to receive messages. The portfolio can also include new projects, certificates, animations, and a responsive design for different devices.

## 5. Conclusion

The personal portfolio website is a useful beginner-level web development project. It organizes personal and educational information in a clear and attractive format. By creating this website, students can practice HTML and CSS and build a foundation for developing more advanced websites in the future.

## 6. Code

HTML and CSS source code for the Personal Portfolio Website.

```

# MY PORTFOLIO

Home About Education Skills Projects Hobbies Contact

## HELLO,I'M MANOGNA

I am a first-year B.Tech student interested in programming and technology.

Welcome to my personal website!

## ABOUT ME

I am a passionate engineering student. I enjoy learning new technologies, improving my skills, and creating simple projects.

## MY EDUCATION

### B.Tech

Computer Science Engineering

2026 - 2030

### Intermediate

MPC

2024 - 2026

### SSC

School Education

2024

## TECHNICAL SKILLS

HTML CSS Python Communication

## MY PROJECTS

### Personal Website

A simple personal website created using HTML and CSS.

### Cafe Website

A simple website displaying food items and menu details.

## MY HOBBIES

### Listening to Music

I enjoy listening to music.

### Reading

I love reading and learning new things.

### Exploring Technology

I enjoy learning about new technologies.

## CONTACT ME

Email: manogna@gmail.com

Phone: 9876543210

Location: Andhra Pradesh, India
